

PROCESS TECHNOLOGY

Certified to ISO 9001:2008, Including Design

Process Technology's design, production and distribution operations are certified to the ISO 9001:2008 (with design), International Quality System Standard.

The company's entire quality system was audited and certified by Smithers Quality Assessments, Inc. (SQA), a leading independent accredited registrar.

Process Technology specializes in the design and manufacture of industrial heating and process equipment servicing the semiconductor, metal finishing, electroplating, decorative plating, printed circuit board, aerospace, automotive, aquaculture, food, microelectromechanical systems (MEMS), flat panel display (FPD), cleaning technologies, precious metals, powder coating, photovoltaic, pharmaceutical and chemical processing industries.

Smithers is fully accredited by the American National Accreditation Body (ANAB), and is a member of the Independent Association of Accredited Registrars.

Process Technology, established in 1978, is located in Mentor, Ohio. For further information, please contact Process Technology at info@process-technology.com.
